

The Sonic Identity

Dualisis is a progressive metal band forging soundscapes where heaviness and introspection collide. Their music stands out through a deeply personal approach, drawing from a wide spectrum - from the atmospheric complexity of **Tool** or **Tesseract** to the emotional weight of **Katatonia** or **Walkways**. The result is a powerful and cathartic journey, steeped in mystery and shadow. They embody the duality inherent in existence: a confrontation between punishing modern riffs and fragile, expansive melodies.

Origins & Evolution

Formed in 2023 in Lorient (France), the project was born from the meeting of vocalist **Yama Tokido** and guitarist/pianist **Eric Senn**. Their vision was to create a musical entity that harnesses the raw power of Metal to explore the human psyche through haunting melodies and rhythmic complexity. With intricate meanings, their lyrics offer multiple layers of interpretation, inviting a deeply organic sense of introspection and a profound emotional resonance. The lineup solidified with the arrival of **Corentin Senn** (bass/cello) and **Estéban Rodriguez** (guitar) in 2024, followed by **Adrien Escaich** (drums) in 2025, bringing an intense creative synergy and unique organic textures to the band's sound.

News & Upcoming Releases

2026 marks a major turning point for the band:

- **Discography:** Following the success of the singles "*Us*" (October 2025) and "*The Deep*" (December 2025), the band will release their debut EP, "*Us*", in **mid-May 2026**.
- **Recording:** Dualisis is currently in the studio, preparing their first full-length album, scheduled for release at the end of this year.

Live Experience & Professional Support

Currently supported by **L'Hydrophone** (a renowned professional structure for emerging artists in France), **Dualisis** benefits from professional coaching and artist development. This collaboration led to a dedicated creative residency in late 2025 to refine their immersive live set.

Live performance is the heart of the project. After a successful stage debut on December 5th at PitDog (Lorient), **the band is embarking on a 12-date tour throughout 2026**. These shows are a crucial opportunity for **Dualisis** to **hone their stage craft** and deliver an intense, uncompromising live transposition of their progressive soundscapes.
